# RTU HERBICIDE

## A NATURAL & SAFE WEED KILLER!

- KENSO Nonanoic Acid "Ready To Use" herbicide is derived from a naturally occurring substance commonly present in low levels in plants.
- Nonanoic Acid is **SAFE TO USE** and rapidly decomposes in both water and soil.
- Kenso's formulation is effective on a wide range of weeds and acts rapidly.
- The formulation is hydrocarbon free.

NEW

## Application Uses

### Landscape Area.

### Amenity & Council.

### Around the House.

## Why KENSO Nonanoic Acid?

- Active Ingredient derived from plants, a naturally occurring substance
- Effectively eliminates target weeds with rapid burn down
- Perfect for controlling weeds around residential, amenity, & council areas
- A safer option for family, pets, and applicators
- Available as a 'ready-to-use' formulation (NO dilution is needed)
- Available in 500ml and 1L pack

## How to Use?

- 1 DIRECT APPLICATION ON TARGET WEEDS AND SPRAY
- 2 ADJUST YOUR TRIGGER SPRAYER ACCORDING APPLICATION SITUATION:

### JET MODE

FOR REACHING WEEDS  
GROWING IN NARROW SPACES
